INFORMATION ABOUT THE NORTH CAROLINA REGISTER AND ADMINISTRATIVE CODE

NORTH CAROLINA REGISTER

The *North Carolina Register* is published monthly and contains information relating to agency, executive, legislative and judicial actions required by or affecting Chapter 150B of the General Statutes. All proposed, administrative rules and amendments filed under Chapter 150B must be published in the Register. The Register will typically comprise approximately one hundred pages per issue of legal text.

State law requires that a copy of each issue be provided free of charge to each county in the state and to various state officials and institutions. The *North Carolina Register* is available by yearly subscription at a cost of ninety-five dollars (\$95.00) for 12 issues.

Requests for subscriptions to the *North Carolina Register* should be directed to the Office of Administrative Hearings, P. O. Drawer 11666, Raleigh, N. C. 27604, Attn: *Subscriptions*.

ADOPTION, AMENDMENT, AND REPEAL OF RULES

An agency intending to adopt, amend, or repeal a rule must first publish notice of the proposed action in the *North Carolina Register*. The notice must include the time and place of the public hearing; a statement of how public comments may be submitted to the agency either at the hearing or otherwise; the text of the proposed rule or amendment; a reference to the Statutory Authority for the action and the proposed effective date.

The Director of the Office of Administrative Hearings has authority to publish a summary, rather than the full text, of any amendment which is considered to be too lengthy. In such case, the full text of the rule containing the proposed amendment will be available for public inspection at the Rules Division of the Office of Administrative Hearings and at the office of the promulgating agency.

Unless a specific statute provides otherwise, at least 30 days must elapse following publication of the proposal in the *North Carolina Register* before the agency may conduct the required public hearing and take action on the proposed adoption, amendment or repeal.

When final action is taken, the promulgating agency must file any adopted or amended rule for approval by the Administrative Rules Review Commission. Upon approval of ARRC, the adopted or amended rule must be filed with the Office of Administrative Hearings. If it differs substantially from the proposed form published as part of the public notice, upon request by the agency, the adopted version will again be published in the *North Carolina Register*.

A rule, or amended rule cannot become effective earlier than the first day of the second calendar month after the adoption is filed with the Office of Administrative Hearings for publication in the NCAC.

Proposed action on rules may be withdrawn by the promulgating agency at any time before final action is taken by the agency.

TEMPORARY RULES

Under certain conditions of an emergency nature, some agencies may issue temporary rules. A temporary rule becomes effective when adopted and remains in

effect for the period specified in the rule or 180 days whichever is less. An agency adopting a temporary rule must begin normal rule-making procedures on the permanent rule at the same time the temporary rule is adopted.

NORTH CAROLINA ADMINISTRATIVE CODE

The North Carolina Administrative Code (NCAC) is a compilation and index of the administrative rules of 25 state agencies and 38 occupational licensing boards. The NCAC comprises approximately 15,000 letter size single spaced pages of material of which approximately 35% is changed annually. Compilation and publication of the NCAC is mandated by G.S. 150B-63(b).

The Code is divided into Titles and Chapters. Each state agency is assigned a separate title which is further broken down by chapters. Title 21 is designated for occupational licensing boards.

The NCAC is available in two formats.

- (1) Single pages may be obtained at a minimum cost of two dollars and 50 cents (\$2.50) for 1 page or less, plus fifteen cents (\$0.15) per each additional page.
- (2) The full publication consists of 52 volumes totaling in excess of 15,000 pages. It is supplemented monthly with replacement pages. A one year subscription to the full publication including supplements can be purchased for seven hundred and fifty dollars (\$750.00). Individual volumes may also be purchased with supplement service. Renewal subscriptions for supplements to the initial publication available.

Requests for pages of rules or volumes of the NCAC should be directed to the Office of Administrative Hearings.

NOTE

The foregoing is a generalized statement of the procedures to be followed. For specific statutory language it is suggested that Articles 2 and 5 of Chapter 150B of the General Statutes be examined carefully.

EXECUTIVE ORDER NUMBER 57

GOVERNOR'S BLUE RIBBON COMMISSION
ON COASTAL INITIATIVES

North Carolina's coastal sounds and waterways represent unique and invaluable natural resources for all the people of North Carolina.

The use and preservation of these resources is especially important to those recreational boaters, sports fishermen and vacationers who utilize our coastal areas.

In order to protect these natural resources, provide for the orderly growth of marine related activity, and promote environmentally sound economic development along our coast, it is essential that North Carolina develop and implement a Coastal Initiatives Plan. This plan should work to enhance the quality of our coastal environment by clustering marine related development in carefully selected locations while other more ecologically sensitive areas are given increased environmental protection.

Therefore, by the authority vested in me as Governor by the Constitution and laws of North Carolina, IT IS ORDERED:

Section 1 ESTABLISHMENT

There is hereby established the Governor's Blue Ribbon Commission on Coastal Initiatives.

Section 2 MEMBERSHIP

The Commission shall be composed of not less than 10 members appointed by the Governor. The membership shall include the Secretaries of:

- a. Department of Natural Resources and Community Development;
- b. Department of Commerce;
- c. Department of Administration;
- d. Department of Transportation;
- e. Department of Human Resources.

In addition to those representatives set forth above, the Commission shall include representatives from interested environmental groups, local governments and marine activity related businesses.

The Governor shall designate the chairman of the Commission and all members shall serve at the pleasure of the Governor. All vacancies shall be filled by the Governor.

Section 3 MEETINGS

The Commission shall meet at such times and at such locations as directed by the Chairman.

Section 4 DUTIES

(i) It shall be the responsibility of the Commission to develop and implement a long-term, environmentally sound plan to provide additional protection for environmentally sensitive areas in the 20 coastal counties and to encourage and facilitate clustered development in selected local communities seeking to improve shoreline and marine activity related development.

Recommendations and areas of program implementation in the plan shall include, but not be limited to:

- protective measures for marine and coastal resources;
- navigation aids, including a waterways system plan;
- incentives to support local community shore line or marine activity related economic development.

(ii) The Commission shall have the authority to direct the work of the Administrative Working Group established in Section 5 of this order.

Section 5 ESTABLISHMENT OF
ADMINISTRATIVE WORKING GROUP

There is created as an adjunct to the Commission an Administrative Working Group (AWG) which shall be composed of representatives from the various State departments and agencies involved in planning and implementing the Coastal Initiatives Plan.

All members of the Administrative Working Group shall be designated by the Governor.

The Governor shall designate the chairman of the Administrative Working Group. The AWG shall meet at the call of either its Chairman or the Chairman of the Commission.

Section 6 DUTIES OF AWG

The Administrative Working Group shall, at the direction of the Commission, prepare the plans called for in Section 4 of this order for approval by the Commission. After such approval, the Administrative Working Group shall work to implement the plan as directed by the Commission. The Administrative Working Group will work to coordinate efforts among all involved State departments to ensure the successful completion of the Commission's plan.

Section 7 COMMUNITY TEAMS

In carrying out its duties the Administrative Working Group shall have authority to designate interdepartmental community teams composed of State and other governmental agency representatives. These teams shall work at the community level to assist the AWG in the

development and implementation of the Commission's plan.

These teams shall report to and work at the direction of the Administrative Working Group.

Section 8 ADMINISTRATIVE SUPPORT AND EXPENSES

The Department of Natural Resources and Community Development shall provide necessary staffing and administrative support for the Commission and the Administrative Working Group. Other State departments and agencies shall assist the Commission and Administrative Working Group in this undertaking by rendering such technical advice and assistance to them as is from time to time requested and by cooperating fully in the implementation of the approved Coastal Initiatives Plan.

Members of the Commission shall be entitled to such per diem expenses and reimbursement for travel expenses as authorized under N.C.G.S. 138-5. Members who are State employees shall be reimbursed as authorized by N.C.G.S. 138-6.

Funds for reimbursement of these and other administrative expenses of the Commission shall be made available from funds provided by the Department of Administrative, Department of Transportation, and the Department of Natural Resources and Community Development as authorized and directed by the Office of Management and Budget.

Section 9 EFFECTIVE DATE

This order shall be effective immediately, and shall remain effective until December 31, 1992.

Done in Raleigh, North Carolina this the 23rd day of November, 1987.

Dear Mr. Crowell:

This refers to the procedures for conducting the December 8, 1987, special election for the Town of Enfield in Halifax County, North Carolina, submitted to the Attorney General pursuant to Section 5 of the Voting Rights Act of 1965, as amended, 42 U.S.C. 1973c. We received your initial submission on September 1, 1987; supplemental information was received on September 14 and 15, 1987. Although we noted your request for expedited consideration, we are unable to respond until now.

The Attorney General does not interpose any objection to the change in question. However, we feel a responsibility to point out that Section 5 of the Voting Rights Act expressly provides that the failure of the Attorney General to object does not bar any subsequent judicial action to enjoin the enforcement of such change. See Section 51.41 of the Procedures for the Administration of Section 5 [52 Fed. Reg. 496 (1987)].

CHAPTER 1 - DEPARTMENTAL RULES

**SUBCHAPTER II - INDUSTRIAL BUILDING
AND RENOVATION FUND**

**SECTION .0100 - PURPOSE AND
DEFINITIONS**

.0101 BACKGROUND AND OBJECTIVES

(a) The purpose of the North Carolina Industrial Development Fund (also to be known as the Industrial Building and Renovation Fund) is to assist local city or county governments located in the most economically depressed counties in the state. This assistance will be intended to help those units of government create new jobs by providing financing for the renovation or improvement and expansion of manufacturing or industrial buildings so as to induce "private profit making" entities to occupy, by lease or purchase, and to operate manufacturing or industrial businesses.

(b) The objective of this program will be to provide new full time jobs for North Carolina citizens. The department will necessarily determine that the renovations and improvements are a necessary part of the private firms decision to provide the new jobs. If it is determined that the private firm would have (or has already begun to) spend private money to make these renovations and create these jobs, no funds from this program will be expended.

Statutory Authority Section 111 of Part XXII Chapter 830, 1987 Session Laws.

.0102 DEFINITIONS

(a) "Act" means Section 111 Part XXII of the consolidated budget act codified as Chapter 830 of the 1987 Session Laws.

(b) "Applicant" means a unit of city government located in a qualified county or a unit of county government which meets the definition of a qualified county.

(c) "Industrial Development Fund" means the appropriation of monies given to the Department of Commerce for these purposes. This fund will also be known as and referred to as the Industrial Building Renovation and Improvement Fund.

(d) "Qualified County" means one of the 50 most economically depressed counties with the lowest median per capita income, as compared to the 50 least economically depressed counties with the highest median per capita income. The median per capita income figures used in making this comparison and the delineation of "most" and "least" will be the latest available per capita income figures, by county, as

documented in a published form by any State or Federal Agency generally recognized as having expertise and creditability in this field.

(e) "Project" means one or more activities proposed for funding, or for partial funding, under this Rule. Such a project will be described in a narrative and accompanied by a preliminary set of drawings which set out the exact factual situation and a detailed schedule of costs from a contractor or engineer. The schedule must constitute an ability to complete such project with no more than a ten percent contingency. All such project material will provide evaluations of potential for unusual site characteristics which might influence construction or operating costs.

(l) These renovations or improvements may include:

(A) the construction of, or improvements to existing water, sewer, gas or electrical utility systems, distribution lines, or required storage facilities, and or;

(B) the renovation of buildings to include structural repairs, structural improvements such as roof repair, addition of docks, or the erection of walls or special structural support to support cranes;

(C) improvements to the building necessary to make the building suitable for the occupancy of the building by the occupant and the operator of the project.

Such improvements may include mechanical equipment such as heating or air conditioning equipment, plumbing, pipes or trenching to handle effluents or process water, special electrical additions necessary for ovens, furnaces or other processors and lighting. If a renovation or an improvement is critical to the operation of a particular manufacturing or industrial businesses, or, if such improvements are critical to the decision making process pertinent to the creation of such jobs, the actual improvement need not be located on the site of the industrial building. Still, the application must document the exact relationship of the jobs and the project. An example of fundable project would be the case where a unit of government must construct an elevated water tank and service water lines to a building so as to provide sprinkler water to a building where such service is directly required to operate the industrial or manufacturing business. An example of a unfundable project would be where a unit of government seeks to expand or to repair defi-

ciencies in their total system and where the relationship to the creation of jobs is fairly general or indirect. The project will be described in the perspective of employment to be created in the impact area of the project. Direct and indirect jobs will be treated separately in the discussion. The operator of the project will provide details as to the nature of direct jobs created, including the skills required, work conditions, wages paid and seasonal influences on the number of work days per year.

(f) "Renovation" shall have the same meaning as project, as described above.

(g) "Secretary" means the Secretary of the North Carolina Department of Commerce or his designee.

(h) "State" means the State of North Carolina.

Statutory Authority Section 111 of Part XXII Chapter 830, 1987 Session Laws.

SECTION .0200 - GENERAL REQUIREMENTS

.0201 DATE FOR RECEIPT OF APPLICATIONS

The Department of Commerce will receive applications after November 15, 1987 on a first-come, first-serve basis. Applications will be assigned a processing case number when that application is received and is judged to be sufficiently complete for consideration. Where possible, applications will be processed in the order of the processing numbers assigned.

Statutory Authority Section 111 of Part XXII Chapter 830, 1987 Session Laws.

.0202 GRANT CATEGORIES

(a) Applicants can apply for funding under different grant categories, including the categories of:

- (1) utility improvements or additions owned by public bodies;
- (2) utility improvements or additions owned by private entities;
- (3) industrial facilities owned by public bodies but being leased or being improved for immediate or delayed sale to private operators, or to private "arms-length" landlords;
- (4) industrial and manufacturing facilities owned by private "non-profit" entities such as "Community Development Corporations" or "Committees of 100" funded and/or endorsed by the elected

leadership of the unit of Government; and

- (5) industrial and manufacturing facilities owned by "for profit" entities to be improved by funds loaned to the private "profit-making" entity by a unit of city or county government.

(b) There is no minimum grant amount which applicants may request or be awarded. Grant awards shall not exceed the total amount specified by the General Assembly in its appropriation process. Chapter 830 of the 1987 Session Laws, in Section 111, Paragraph (2), limited the maximum grant to a sum not to exceed the lesser amount the two hundred fifty thousand dollars (\$250,000), or a total of twelve hundred dollars (\$1,200) for each job created. For the purpose of this Section, the per job limitation will be imposed on the basis of requiring a commitment from the occupying industrial or manufacturing firm as to the number of jobs it will create over a reasonable period of time, not to exceed three years. The number of jobs created will include only those people directly employed in permanent or seasonal jobs by the operator who occupies the facility; indirect and temporary jobs will not be included.

(c) When a project renovation or improvement is to be accomplished to a building or on a site owned by a private entity, whether the private entity is conducted on a "for profit" or on a "not for profit" basis, the project will be financed by a loan to that private entity. This loan will be made to the private entity by the local unit of government with funds made available from this program. In each case, the local unit of government will establish its own authority to do that financing. Reference is made to Chapter 639 of the General Statutes. The applicant will require and provide to the Department of Commerce satisfactory documentation that all costs are reasonable and that all funds are to be expended with regard to the conflict of interest statutes regulating business transactions between government officials and other involved parties. The applicant will propose a plan of project administration which is satisfactory for the Department of Commerce.

(d) All funds expended which directly assist participating private entities must be repaid to grant recipients and then returned to the Department of Commerce as such repayments are received. Such repaid funds will not be returned to the General Fund, but set aside to fund new projects approved under this Subchapter. Generally, project grants classified

under Rule .0202 (a) will not be repaid. Repayment for projects otherwise classified may be given subordinate collateral positions, interest costs which are at less than market rates, or amortization which defers cash flow, in so long as requests are documented as necessary to the creation of jobs and the success of the project.

Statutory Authority Section 111 of Part XXII Chapter 830, 1987 Session Laws.

SECTION .0300 - SELECTION PROCESS

.0301 REVIEW OF APPLICATIONS

(a) Applications will be submitted in a manner prescribed by the Department of Commerce. Selection of applications for funding will be based primarily on information contained in the application. Thusly the application must provide sufficient information for the Department of Commerce to rate them against the selection criteria. When an application is deemed complete, it will be assigned a processing case number.

(b) Applications must be received by the Department of Commerce, in the Commerce Finance Center, Room 2019, Dobbs Building, 430 N. Salisbury Street, Raleigh, North Carolina 27611. The department will maintain a policy that applications be approved or denied by the last day of the calendar month following assignment of a processing case number as set out in Rule .0201 (a). When possible, applications will be processed in the order that case number are assigned.

Statutory Authority Section 111 of Part XXII Chapter 830, 1987 Session Laws.

.0302 ELIGIBILITY REQUIREMENTS

(a) Applications will show that:

- (1) That this funding is a vital part of the proposal to create the jobs set out and that the jobs will not be created if the project goes unfunded, and
- (2) That the project is completely funded or financed, except for the particular funds sought in the application, and
- (3) The involvement of the local unit of government is formally authorized by its elected board under specific resolution and by specific State Statute, and
- (4) The participating private entity must provide a letter of commitment relating to the project. That letter will state that the project is to be carried out as described in the application, with

specificity as to time schedules and to the parties involved.

Statutory Authority Section 111 of Part XXII Chapter 830, 1987 Session Laws.

SECTION .0400 - APPROVAL CRITERIA

.0401 GENERAL

In order for the Department of Commerce to approve a project, the secretary is required to make certain findings necessary to document that the Department of Commerce is conducting the duties specifically given to it in Chapter 830 of the 1987 Session Laws, those duties expressed in other General Statutes, and in Rule .0402 of these procedures, in a responsible and prudent manner.

Statutory Authority Section 111 of Part XXII Chapter 830, 1987 Session Laws.

.0402 REQUIRED FINDINGS

(a) Before the Department can begin to make the approval as specified in G.S. Chapter 830, a finding must be made that the project:

- (1) Will assist a unit of Government in one of the most economically depressed counties of the State as measured by median per capita income.
- (2) The funds will be used for renovation of buildings to be used in manufacturing and industrial operations.

(b) The secretary will document, a finding based on data provided to him either in the application or by staff research, that the jobs to be created by this project over no more than a three year period, will be large enough in number to have a measurable favorable impact on the area immediately surrounding the project and will be commensurate with the size and cost of the grant to the project. The department will use as a guideline, a standard of requiring one job saved or generated for each one thousand two hundred dollars (\$1,200) in grant financing. The applicant has the burden of demonstrating that the jobs will have a measurable impact on the county. The applicant must show by clear and convincing evidence the number and type of such jobs generated or saved.

(c) The secretary will make a finding that the operator of the proposed project has demonstrated the capabilities to operate such a facility. The applicant has the burden of showing that capability exists in the operator to operate and maintain the facility efficiently and effectively. Financial strength and prior related

experience by the operator will be given great weight. Where little or no prior experience can be demonstrated, the qualifications of management, including production or engineering staff, applicable, will be of great significance.

(d) The secretary will make a finding that the financing of such project by the authority will not cause or result in the abandonment of an existing industrial or manufacturing facility of the proposed operator of an affiliate elsewhere in the state unless the facility to be abandoned because of obsolescence, lack of available labor, or site limitations. The department shall consider an abandonment statement as prima facie proof of lack of abandonment.

(e) The department shall use the definitions of terms found in Section .0200 of this Subchapter to make these findings.

Statutory Authority Section 111 of Part XXII Chapter 830, 1987 Session Laws.

.0403 FORMAL APPLICATIONS PROCEDURES: DENIAL

(a) Unless the applicant has met its various burdens of proof, the secretary shall not make his required findings.

(b) All findings shall be in writing and where adverse findings are made, they shall specifically indicate in detail which elements of proof were weak, the required conclusions which could not be made and any suggestions for amending the application.

Statutory Authority Section 111 of Part XXII Chapter 830, 1987 Session Laws.

.0404 FORMAL APPLICATION PROCEDURES: APPROVAL

(a) Where the secretary makes all the findings necessary, he will do in writing to the applicant at the earliest possible date after following the procedures as set forth in this Subchapter.

(b) The secretary will prepare a letter of approval in which all his findings as set forth and cause this letter to be mailed to the applicant.

Statutory Authority Section 111 of Part XXII Chapter 830, 1987 Session Laws.

SECTION .0500 - RESERVATION OF FUNDS

.0501 GENERAL

(a) Units of government may apply for a "120 day reservation" of funds, relating to a particular building renovation, so as to allow local units of government to induce prospective private sector employers to locate or expand and thusly, to create new jobs. The

secretary may accept and approve the requests where local units of government can:

- (1) Document that they have the potential for a project of strong merit;
- (2) Where a particular employer is interested in a proposed industrial building;
- (3) Where strong competitive offers have been made to the client in other states or where more comparative proposals have been made to the potential employer by communities located in the least distressed counties. That application would be prepared along the lines of the application for approval described in Rule .0302 of this Subchapter, except that the data normally obtained from the client or potential employers would not be necessarily prepared by the client and would not be required in such detail.

Statutory Authority Section 111 of Part XXII Chapter 830, 1987 Session Laws.

.0502 LIMITATIONS

Such approvals may be made in so long as that the "reservation of funds" for that project will not cause the total program funds "reserved" in that manner to exceed a sum not larger than an amount equal to one-third of the total of program funds not previously committed in the regular approval process. The total of programs funds not previously committed will include appropriated funds, those funds received in repayment from recipients, interest earned, accrual in escrow accounts and funds not used and reverted from either approved projects or from "reserved" funds.

Statutory Authority Section 111 of Part XXII Chapter 830, 1987 Session Laws.

.0503 REVERSION OF FUNDS

An approval for "reservation" of funds for projects will not predicate approval or funding of a project. When a formal and complete application for approval of a project has not been filed by the applicant that requested the reservation of funds, before the expiration date of the "reservation of funds", the department may revert those funds back to the program without any obligation to the unit of government. Such reversion of funds will be communicated to the Unit of Government in writing.

Statutory Authority Section 111 of Part XXII Chapter 830, 1987 Session Laws.

SECTION .0600 - REPORTING REQUIREMENTS

.0601 REPORTING REQUIREMENTS

(a) The Department of Commerce will report annually to the General Assembly concerning the applications made to the fund and the payments made from the fund and the impact of the payments in the targeted counties. This report will be filed annually with the General Assembly either at the expressed convenience of the House and the Senate or by March 1 of each year at the offices of the Lt. Governor and the Speaker of the House.

(b) The Department of Commerce will also file monthly reports with the Joint Legislative Commission and the Fiscal Research Division. These reports will commence on November 30, 1987 and shall name the party(s) to whom payments were made, in what amounts, and, for what purposes.
